SUMMARY

- Agile-driven software engineer with 2+ years coordinating technical and creative teams to deliver digital products.
- Collaborative and adaptive in a fast-paced, culturally diverse startup environment.
- Global experience across Asia and Europe - polyglot in English, Mandarin, Cantonese, Portuguese, basic Swedish.

PROFESSIONAL EXPERIENCE

Software Engineer | Repli5 2022 - 2024

- Developed 15+ features using Python for WorldGenerator, a Blender add-on that automates the creation of 3D environments by working in diverse domains such as Backend, UI, Technical Writing, and DevOps.
- Drove over 100+ Scrum ceremonies, fostering a culture of collaboration and continuous improvement.
- Reformed and drove the UI team, integrating the UI/UX of 13+ features more closely with development processes by setting 50+ weekly meetings to continuously improve the workflow and interface for upcoming features.
- Agile Optimization: Streamlined Jira workflows and Notion docs, improving team velocity by 25% in a team of 5.
- Maintained the sprint and product backlog by assisting the product manager and the team in defining sprint goals, user stories, and acceptance criteria.
- Engaged in product demos for clients, eliciting actionable feedback that led to a reduction in reported issues.
- Conducted bi-weekly sprint demos for stakeholders, reducing revision cycles by 30% through early feedback integration.

CREATIVE PROJECTS

Game Designer | “Scarab Descent” 2024 - 2025

- Designed and greyboxed a non-linear world map in Unreal Engine 5, emphasizing genre staples such as exploration and ability gated progression for a Metroidvania FPS vertical slice.
- Managed playtest feedback loops to prioritize player flow, pacing, combat encounters, and difficulty.

EDUCATION

Master’s in Computer Science, Major in Game & Interaction Design

Chalmers / University of Gothenburg | Graduated 2022

- Agile Dev. Processes (Node.js): Web app following agile processes in a team of 9. As a product owner, coordinated designers (Figma) and developers (Javascript) to deliver prioritized features 2 weeks ahead of schedule.

Bachelor’s in Computer Science, Major in Software Engineering & Management

University of Gothenburg | Graduated 2020

- Requirements Engineering: Elicited requirements by conducting usability tests, drafted personas, and created UI mockups to address the needs of a bicycle fitness tracker application.

KEY SKILLS

- Requirements Engineering
- Agile Project Management
- Creative Collaboration
- Client Communication
- Scrum, Sprint Planning, Risk Mitigation

TECHNOLOGIES

- **Programming:** Python, C#, C/C++, Java, JavaScript, Bash, Blueprints
- **Version Control:** Git, Perforce, Plastic SCM
- **Collaboration Tools:** Miro, Figma, Jira, Notion, Trello
- **Game Engines:** Unity, Unreal Engine 5
- **3D Modeling:** Blender
- **Containerization:** Docker
