SUMMARY

- Proven ability to streamline collaboration between developers, designers, and stakeholders in fast-paced environments.
- Global experience across Asia and Europe - polyglot in English, Mandarin, Cantonese, Portuguese, basic Swedish.

PROFESSIONAL EXPERIENCE

Software Engineer & Scrum Master | Repli5

2022 - 2024

- Developed 15+ features for WorldGenerator, a **customer-facing digital product for global clients** that automates the creation of 3D environments by working in Backend, UI, Technical Writing, and DevOps.
- Led daily standups, sprint planning, and retrospectives for a 5-member team (developers, UI/UX designers, machine learning engineers), improving sprint completion rates by 25%.
- Automated CI/CD pipelines (Bitbucket, Google Cloud) for artifact creation and deployment across Windows/Linux environments, reducing deployment errors by 30% and increasing deployment speed by 50%.
- Delivered bi-weekly sprint reviews to clients, translating technical progress into business outcomes, managing expectations, aligning product goals, and adjusting upcoming sprints when necessary.
- Aligned deliverables between AI, dev, and art teams by resolving dependencies and refining Jira workflows.
- Drove over 100+ Scrum ceremonies, fostering a culture of collaboration and continuous improvement.
- Reformed and drove the UI team, integrating the UI/UX of 13+ features more closely with development processes by setting 50+ weekly meetings to continuously improve the workflow and interface for upcoming features.
- Engaged in product demos for clients, eliciting actionable feedback and business requirements that led to a reduction in reported issues.
- Supported client onboarding for the digital product, optimizing digital customer journeys (B2B) via a combination of user documentation and virtual onboarding.

EDUCATION

Master's in Computer Science, Major in Game & Interaction Design

University of Gothenburg | Graduated 2022

- **Agile Development Processes**
- Project focused on elicit requirements, implement, test and deploy code for a web app in a self-organizing team of 9.
